Choose freedom.

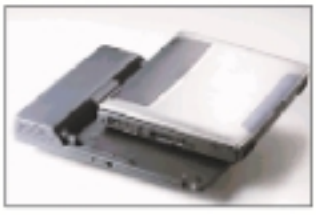
Satellite Pro 4600 series

Toshiba's Satellite Pro 4600 series gives you the freedom. Freedom to roam around the office, thanks to built-in wireless-ready capabilities that give you instant access to network resources. Freedom on the move, thanks to advanced technology, intelligent design and fully equipped communication features.

Toshiba PCs use genuine Windows® Systems
www.microsoft.com/piracy/howtotell

Fully equipped for mobile communications: Internet ready and always well connected with the globally compatible V.90 data/fax modem and 10/100Mbps Ethernet ports.

Wireless connectivity becomes a reality with the built-in antenna and optional wireless LAN Card Kit[1]. You can roam around the office and access network resources without the need for cables.



The Port Replicator and Enhanced Port Replicator IV offers one-touch docking solutions for your office peripherals.

One-touch biometrics authentication solution with Toshiba PC Card Fingerprint Reader. This enhances data security and simplifies access for authorized users without any need to remember numerous passwords.
